Datanamics Internet Access

High-Speed Internet Access (HSIA) isn't a luxury anymore, but a business necessity, both for home offices and the traveling business professional. Every multi-unit structure in the country either has HSIA, is planning to purchase it or needs to upgrade the system they currently have.

Datanamics is an expert in the design, implementation, and support for High-Speed Internet Access in the hospitality industry - hotels, resorts, and convention centers; as well as other multi-unit facilities such as condominiums, apartments, office buildings, hospitals, and universities. Datanamics HSIA solution makes the best use of existing systems and investments by replacing only those components necessary to ensure immediate operability and future reliability. Our solution also delivers superior technology, turnkey installation, plug-n-play access, on-site training of hotel staff, and includes 24/7 staff and guest technical support.

Through thousands of successful installations throughout North America, Datanamics has gained a reputation as one of the leading High-Speed Internet Access installation companies in the hospitality industry.
